Experience

Jan 2025 - Present

Exir Games – *Co-Founder, CTO*

- Explored Meta SDKs and PolySpatial visionOS, developing key XR production workflows.
- Key involvement in the development of 3 Mixed Reality titles, including Banners & Bastions.

Sep 2022 - Dec 2024

Dropout Games – *Game Producer*

- Planned tasks for developers and artists using Agile practices, ensuring clear prioritization and designing project roadmaps using tools such as ClickUp (preferred) and Trello.
- Analyzed in-game data using Firebase and GameAnalytics for continuous improvement and conducted market research with AppMagic and SensorTower.
- Recruited external talent and grew connections through LinkedIn and industry events.
- Contributed to the design and production of Last Survivor.

Jul 2019 - Sep 2022

Dropout Games – *Game Developer*

- Developed successful mobile games, including Untangle 3D (+1M downloads), Bullet Black Hole (+100K downloads), Twisted Puzzle (+100K downloads), and more
- Created over 30 fast-paced prototypes, each developed within a week.

May 2018 - Jan 2019

Saaland Group – *Technical Lead*

- Created innovative physical games, such as a motor race game combined with a stationary bike, or Piano Tiles game with a jumpable platform, showcased at Iran Science Park and several educational events.
- Developed software for participant management in game contests.
